Attention: Venture Global CP2 LNG, LLC
FE Docket No. 21-131-LNG
PRIVILEGED AND CONFIDENTIAL Submission of Contract
and Summary of Major Provisions of Contract for Public Posting

Dear Ms. Sweeney:

Venture Global CP2 LNG, LLC (“CP2 LNG”) was granted long-term, multi-contract authority to export liquefied natural gas (“LNG”) to nations with which the United States has or subsequently enters into a Free Trade Agreement (“FTA”) requiring the national treatment of natural gas in Order No. 4812 in Docket No. 21-131-LNG on April 22, 2022. CP2 LNG’s application for authorization to export LNG to non-FTA nations remains pending in that proceeding. Ordering Paragraph (D) of Order No. 4812 requires CP2 LNG to file a non-redacted copy of all executed long-term contracts associated with the long-term export of LNG from its Project within thirty days of contract execution. If a contract is filed under seal and subject to a claim of confidentiality or privilege, the Orders require CP2 LNG to file for public posting a summary of the non-proprietary, major provisions of the contract.

CP2 LNG has entered into a LNG Sales and Purchase Agreement (“SPA”) by and between CP2 LNG and ExxonMobil LNG Asia Pacific, a registered business name of ExxonMobil Asia Pacific Pte. Ltd., dated as of April 29, 2022. The contract is highly confidential and contains commercially valuable and proprietary information the disclosure of which would cause competitive and financial harm to the parties to the contract. Therefore, CP2 LNG is submitting the attached summary, for public posting at the appropriate time, of the major, non-proprietary provisions of the contract. The summary utilizes the template typically followed by other LNG export projects when filing such contracts.

In addition, CP2 LNG is contemporaneously transmitting a full and unredacted copy of the contract itself in a separate, confidential communication directed solely to the addressee, again consistent with the anticipated condition to be included in the coming export authorizations. CP2
