

## Hurricane Ian | Update #9

**REPORT TIME & DATE:** 9:00 AM EDT | Sunday, October 02, 2022

**REPORT DISTRIBUTION:** Public

### EXECUTIVE SUMMARY

Hurricane Ian made landfall on Florida's southwest coast near Fort Myers as a Category 4 hurricane on September 28 and then a second landfall near Georgetown, SC, as a Category 1 hurricane on September 30.

#### Electricity Sector Summary

- Fewer than one million customer outages remain across all states affected by Hurricane Ian. There are approximately 872,000 customer outages in Florida, 33,000 outages in North Carolina, 11,000 in Virginia, and 3,000 in South Carolina as of 8:00 AM EDT, October 2. Outages in Florida are down approximately 68% from the peak on September 29.
- Damage assessments are ongoing and utilities have begun restoration efforts, as conditions permit. Utilities in the impacted area pre-staged crews, equipment, and materials in prior days to prepare for the storm. Electric industry representatives report that more than 44,000 workers from 32 states are supporting power restoration in Florida.
- Overall, Florida utilities report that Ian mainly impacted the distribution system, with no significant damage reported to transmission assets.

#### Oil & Natural Gas Sector Summary

- All ports impacted by Hurricane Ian have reopened as of 3:00 PM EDT, October 1.
- Fuel terminals have reopened in Port Everglades, Port Tampa Bay, and Port Manatee as of September 30.
- Stocks of gasoline and distillate (diesel) fuel in PADD 1C – Lower Atlantic were within the five-year range as of September 23.

#### DOE ACTIONS

- The DOE Energy Response Organization (ERO) is activated in support of restoration efforts following Hurricane Ian and Hurricane Fiona. DOE Emergency Support Function (ESF) – 12 responders are deployed to the following location for Hurricane Ian:
  - FEMA National Response Coordination Center – Washington, DC
  - FEMA Region III Response Coordination Center – Philadelphia, PA
  - FEMA Region IV Response Coordination Center – Atlanta, GA
  - Florida State Emergency Operations Center & FEMA Initial Operating Facility – Tallahassee, FL

## EMERGENCY DECLARATIONS & WAIVERS

### EMERGENCY DECLARATIONS

To provide vital supplies and transportation services to a disaster area in the United States, emergency declarations may be issued by the President, Governors of States, or Federal Motor Carrier Safety Administration (FMCSA). These declarations trigger the temporary suspension of certain federal safety regulations, including Hours of Service, for motor carriers and drivers engaged in specific aspects of the emergency relief effort. See 49 CFR 390.23 for the actual emergency regulation.

Emergency Declarations and HOS Waivers <i>as of 3:00 PM EDT 09/30/2022</i>				
State/Territory	Details	Effective Dates		Status
		Start	End	
AL, FL, GA, KY, MS, NC, SC, TN	<a href="#">FMCSA Regional Emergency Declaration Waiving HOS</a>	9/28	10/28	Active
Florida	<a href="#">Presidential Declaration of Emergency</a>	9/23	Until Rescinded	Active

**OTHER WAIVERS**

- **Gasoline RVP Waiver:** On September 29, the Florida Department of Agriculture and Consumer Services approved the waiver, of fuel volatility standards in the wake of Hurricane Ian. This waiver will allow the sale of [volatility class D-4 fuels](#) in Florida between September 28 and October 31.
- **Dyed Diesel Waiver:** On September 30, the Internal Revenue Service (IRS) issued a waiver of dyed diesel penalties for emergency vehicles use on the highways of Florida. This waiver applies to any person that sells or uses dyed diesel fuel in an emergency vehicle for highway use. The relief began on September 28 and will remain in effect until October 19.
- **LNG and Pipeline Stay of Enforcement:** On September 27, PHMSA enacted an [Emergency Stay of Enforcement Waiver](#) for all LNG facilities and hazardous liquid / natural gas pipeline operators affected by Hurricane Ian. The waiver assures operators that PHMSA does not intend on enforcing certification / training requirements for personnel aiding in the restoration effort post Hurricane Ian. This waiver will remain active for 45 days, unless PHMSA determines that it should be extended.
