RE: Elba Liquefaction Project – Long-Term Contracts FE
Docket Nos. 12-54-LNG and 12-100-LNG DOE/FE
Order Nos. 3106, 3956

Dear Mrs. Sweeney:

On December 16, 2016, the Office of Fossil Energy of the Department of Energy authorized Southern LNG Company, L.L.C. ("SLNG") to export liquefied natural gas ("LNG") to non-Free Trade Agreement countries for volumes equivalent to 130 Bcf/year in DOE/FE Order No. 3956 ("Non-FTA Order"). Condition I(i) to the Non-FTA Order requires that SLNG file "with the Office of Regulation and International Engagement a non-redacted copy of all executed long-term contracts associated with the long-term export of LNG as agent for other entities from the Elba Island Terminal" and either "(a) a redacted version of the contracts . . . or (b) major provisions of the contracts." On May 17, 2016, SLNG provided under seal the long-term contracts relating to the liquefaction and export services. Please find attached a summary form describing the long-term contracts associated with the long-term supply of natural gas to the Elba Island Terminal and for liquefaction and export services. This filing completes the requirements of Condition I.

If you have any questions regarding this filing, please contact the undersigned at (713) 230-3166 or at Orlando.Alvarado@Shell.com.

Sincerely,

Orlando Alvarado
