PALNG is separately filing unredacted copies of the SPAs with DOE/FECM under seal.

PALNG makes this filing without waiver of the position taken by Sempra LNG & Midstream, LLC in the proceedings regarding the Proposed Interpretative Rule in *Filing of Contracts and Purchase Agreement Associated with the Export of Natural Gas*, 83 Fed. Reg. 65111 (Dec. 19, 2018), which remains pending.² Although the SPAs are still subject to certain conditions before the relevant terms of the SPAs become binding, PALNG is submitting the SPAs to demonstrate the significant progress that the project proponents have made to advance the project. With these agreements, the output of Phase 1 of the PALNG liquefaction project covered by the Export Authorizations is now fully subscribed.

Please contact the undersigned with any questions regarding this submission.

Respectfully submitted,

/s/ Brett A. Snyder
