Hello Justine,  
Based on our phone call yesterday, we wanted to follow up with you to provide a response to your question on potential next steps. Unless Pieridae submits a complete request to extend the commencement deadline set forth in its 2016 non-FTA Order (Order No. 3768, Ordering Paragraph D) prior to (or on) February 5, 2023, the request will be deemed out of time and Order No. 3768 will be expired. Please also be aware that if Pieridae submits a timely and complete request to extend the commencement deadline, Pieridae has no reliance interest on Order No. 3768 after its expiration date until DOE issues an order in response to the request for additional time. Any actions taken by Pieridae prior to the issuance of DOE's decision on the request for extension, are at its risk. You can find the most recent example of a request received to extend the commencement deadline for LNG export here: [Port Arthur DOE Extension Request 11.18.2022.pdf \(energy.gov\)](#).

Jennifer

Good afternoon Justine,

Thanks for your email and we'd be happy to have a discussion on your questions on Pieridae Energy (USA) Ltd. We could schedule our discussion on Monday, January 30th, between 12:30-1 pm, 2:30-3 pm or after 4 pm ET? Alternatively, we could schedule our discussion on Tuesday between 11:30 am - 1 pm or after 4 pm ET if those would work better. I can send a meeting invite once we have a date and time.

Thank you,

Peri

Hi Peri,

I hope that this email finds you well.

I was wondering if it is possible to arrange a Teams call to discuss the above as a follow on from our discussions last year regarding updates to the project and the extension of those orders.

I do realise that Order 3768 is coming up for expiry on 4 February, 2023, so if you are available prior to that I would be most grateful.

Kind Regards,  
Justine
