TO EXPORT LIQUEFIED NATURAL GAS TO MEXICO BY VESSEL, AND
TO EXPORT LIQUEFIED NATURAL GAS TO MEXICO BY TRUCK

DOE/FECM ORDER NO. 4980

MARCH 12, 2023

I. DESCRIPTION OF REQUEST

On February 20, 2023, Dersa Oil and Gas Corporation (Dersa Oil and Gas) filed an application with the Office of Fossil Energy and Carbon Management (FECM) of the Department of Energy (DOE) requesting blanket authorization under section 3 of the Natural Gas Act (NGA)¹ for the authority summarized in the list below. The applicant requests the authorization for a two-year term beginning on March 17, 2023.² Dersa Oil and Gas is a Texas limited liability company with its principal place of business in San Pedro Garza Garcia, Nuevo Leon, Mexico.

1. Export natural gas to Mexico by pipeline at any point on the border between the United States and Mexico
2. Export liquefied natural gas (LNG) to Mexico by vessel from any LNG export terminal in the United States and its territories
3. Export LNG to Mexico by truck from any LNG departure facility in the United States and its territories

Export authority was requested for up to a combined total volume equivalent to 100 billion cubic feet (Bcf) of natural gas.

1. Authority to regulate the imports and exports of natural gas, including liquefied natural gas, under section 3 of the NGA (15 U.S.C. § 717b) has been delegated to the Assistant Secretary for FECM in Redelegation Order No. S4-DEL-FE1-2022, issued on June 13, 2022. On July 4, 2021, the Office of Fossil Energy changed its name to the Office of Fossil Energy and Carbon Management.

2. Dersa Oil and Gas' blanket authorization, granted in DOE/FE Order No. 4669, extends through March 16, 2023.

II. **FINDING**

DOE has evaluated the application to determine if the proposed import and/or export arrangements meet the public interest requirement of section 3 of the NGA, as amended by section 201 of the Energy Policy Act of 1992 (Pub. L. 102-486). Under NGA section 3(c), imports and exports of natural gas, including LNG, from or to any country with which the United States has entered into a free trade agreement (FTA) requiring national treatment for trade in natural gas and the import of LNG from other international sources are deemed to be consistent with the public interest.³ DOE must grant such applications without modification or delay.⁴ The authorization sought by Dersa Oil and Gas meets the NGA section 3(c) criteria, and, therefore, is deemed to be consistent with the public interest.
