**Re: Sabine Pass Liquefaction, LLC
FE Docket Nos. 10-85-LNG and 10-111-LNG**

Dear Mr. Anderson:

On September 7, 2010, the U.S. Department of Energy, Office of Fossil Energy (“DOE/FE”) issued an Order granting Sabine Pass Liquefaction, LLC’s (“Sabine Pass”) application under Section 3 of the Natural Gas Act (“NGA”)¹ for long-term, multi-contract authorization to export up to the equivalent of 803 billion cubic feet (“Bcf”) per year of liquefied natural gas (“LNG”) from the Sabine Pass LNG Terminal in Cameron Parish, Louisiana (“Sabine Pass LNG Terminal”) to nations with which the United States has entered, or in the future enters, into a free trade agreement (“FTA”) requiring the national treatment for trade in natural gas.² On August 7, 2012, DOE/FE issued a Final Opinion and Order granting Sabine Pass’s application under NGA Section 3 for long-term, multi-contract authorization to export up to the equivalent of 803 Bcf per year of LNG from the Sabine Pass LNG Terminal to nations with which the United States has not entered into an FTA requiring the national treatment for trade in natural gas.³

In both DOE/FE Order No. 2833 and DOE/FE Order No. 2961-A, DOE/FE directed Sabine Pass to file with DOE/FE’s Office of Natural Gas Regulatory Activities “all executed long-term contracts associated with the long-term supply of natural gas to the Sabine Pass LNG

Terminal . . . within 30 days of their execution.”⁴ More recently, DOE/FE has stated that it “recognizes that some information in long-term contracts associated with the long-term supply of natural gas to the Sabine Pass LNG Terminal may be commercially sensitive.”⁵ Thus, DOE/FE has given Sabine Pass the option to file long-term contracts under seal along with a public summary of the major provisions of the contracts.⁶

As Sabine Pass informed DOE/FE in its February 14, 2014 filing in the above-referenced dockets, Sabine Pass entered into a North American Energy Standards Board Base Contract for Sale and Purchase of Natural Gas with EQT Energy, LLC (“EQT Energy”) on December 30, 2013, as amended on January 16, 2014 (“NAESB Base Contract”).⁷ Pursuant to the terms of the NAESB Base Contract, the enclosed Transaction Confirmation No. 65185 (“Confirmation”) documents a transaction whereby EQT Energy agrees to sell to Sabine Pass a fixed quantity of natural gas on a firm, long-term basis. Sabine Pass intends to liquefy the natural gas secured under the Confirmation for export from the Sabine Pass liquefaction facility, pursuant to the authorizations granted in the above-referenced proceedings.

The Confirmation contains commercially sensitive information, and is being filed herewith under seal. A summary of the major provisions that are not deemed confidential is set forth below.

I. Public Summary of Confirmation

Pursuant to the Confirmation dated April 15, 2014, Sabine Pass agreed to buy natural gas from EQT Energy for a seven-year term beginning on the first day of the month immediately succeeding the date on which all four of the following conditions have been met: (1) Sabine Pass has notified EQT Energy that the first commercial delivery of LNG from the first LNG liquefaction train at the Sabine Pass liquefaction facility (Train 1) has occurred; (2) the commercial in-service date of EQT Energy’s firm transportation contract on Equitrans L.P.’s Ohio Valley Connector project at a level adequate to transport the fixed quantity volume of natural gas specified in the Confirmation has occurred; (3) the commercial in-service date of EQT Energy’s firm transportation contract on Rockies Express Pipeline LLC’s (“REX”) East-to-West project at a level adequate to transport the fixed quantity volume of natural gas specified in the Confirmation has occurred; and (4) the commercial in-service date of Sabine Pass’s firm transportation contract on Texas Gas Transmission, LLC’s (“TGT”) Ohio-Louisiana Access project at a level adequate to transport the fixed quantity volume of natural gas specified in the Confirmation has occurred. The primary delivery point, subject to a condition precedent, is at the REX delivery meter located at the REX Lebanon interconnect with TGT. There are no take-or-pay or equivalent provisions/conditions or restrictions in the Confirmation.

⁴ DOE/FE Order No. 2833 at Ordering paragraph D; DOE/FE Order No. 2961-A at Ordering paragraph G.

⁵ *Sabine Pass Liquefaction, LLC, Order Granting Long-Term, Multi-Contract Authorization to Export Liquefied Natural Gas by Vessel from the Sabine Pass LNG Terminal to Free Trade Agreement Nations* 10, DOE/FE Order No. 3384, FE Docket No. 13-121-LNG (2013).

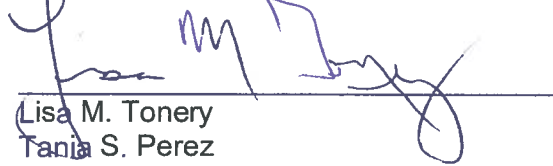

⁶ *Id.*

⁷ There is no corporate affiliation between Sabine Pass and EQT Energy.

II. Request for Confidential Treatment

In the NAESB Base Contract, Sabine Pass and EQT Energy agreed that confidentiality would apply to the terms of any transaction under the NAESB Base Contract, and thus to the Confirmation. Sabine Pass respectfully submits that the Confirmation should be exempted from public disclosure, because it contains commercially sensitive information.

Respectfully submitted,
