

## Clean Energy Demonstration Program on Current and Former Mine Land (CEML) Technical Assistance Overview

Below is a list of technical assistance programs, including those offered by U.S. Department of Energy (DOE) Office of Clean Energy Demonstrations (OCED) and other offices within DOE that may benefit communities and organizations that have or operate on current or former mine land. Click on programs below to explore and request assistance.

### What is technical assistance?

Technical assistance refers to targeted programs, activities, and services provided by federal agencies that support the broader market ecosystem and improve the performance and deepen the impact of federal programs.

Federal Agency	Technical Assistance Program Name	Technical Assistance Program Description
<b>OCED-funded Technical Assistance for the CEML program</b>		
DOE	<a href="#">Clean Energy Demonstration on Mine Land Technical Assistance</a>	Supports CEML program priorities by providing technical assistance to communities and organizations to support the development of clean energy on mine land projects. Hosts a webinar series on a range of issues associated with mine land project development. <a href="https://www.nrel.gov/state-local-tribal/ceml-technical-assistance.html">https://www.nrel.gov/state-local-tribal/ceml-technical-assistance.html</a>
EPA & DOE	<a href="#">Environmental Justice Thriving Communities Technical Assistance Centers (EJ TCTACs)</a>	Provides technical assistance via 17 centers across the nation to help remove barriers and improve accessibility for communities with environmental justice concerns. The TCTACs provide training and other assistance to build capacity for navigating federal application systems, writing strong proposals, and effectively managing funding and guide funding awardees on community engagement, meeting facilitation, and translation and interpretation services. <a href="https://www.epa.gov/environmentaljustice/environmental-justice-thriving-communities-technical-assistance-centers">https://www.epa.gov/environmentaljustice/environmental-justice-thriving-communities-technical-assistance-centers</a>

Federal Agency	Technical Assistance Program Name	Technical Assistance Program Description
<b>Other DOE-funded Technical Assistance relevant to CEML</b>		
DOE	<a href="#">Tribal Energy Technical Assistance</a>	Provides federally recognized Indian tribes, including Alaska Native villages, tribal energy development organizations, and other organized tribal groups and communities, with technical assistance to advance tribal energy projects. <a href="https://www.energy.gov/indianenergy/technical-assistance">https://www.energy.gov/indianenergy/technical-assistance</a>
DOE	<a href="#">Clean Energy to Communities (C2C)</a>	Connects local governments, tribes, electric utilities, and community-based organizations with national laboratory experts and customized, cutting-edge analysis to achieve clean energy systems that are reflective of local and regional priorities. <a href="https://www.energy.gov/eere/clean-energy-communities-program">https://www.energy.gov/eere/clean-energy-communities-program</a>

Note: This document is intended to provide a snapshot of available TA resources directly relevant to the CEML program but may not be comprehensive. If you know of another TA resource explicitly relevant to the CEML program, we would love to include it! Email us at [mineland@hq.doe.gov](mailto:mineland@hq.doe.gov) so we can add it.

For more information on the CEML program, please visit the [CEML webpage](#).
