**Proposed Action Title:** USAF North Las Vegas Facility Temporary Office Installation

**Program or Field Office:** Nevada Field Office

**Location(s) (City/County/State):** Nevada National Security Site, Nye County, NV

---

**Proposed Action Description**

The proposed project would be for the Nevada National Security Site Management and Operating (M&O) Contractor to install up to five (5) USAF modular buildings on the NLVF on the north side of Atlas Road near the Losee Road intersection for USAF ongoing administrative operations at the NLVF. The proposed location of the five modular buildings would be adjacent to Building A-18 in a previously disturbed, paved area delineated with concrete barriers.

The five modular buildings will be delivered by a subcontractor via a flatbed truck in accordance with all Federal, state, and local laws and regulations. The sub-contractor will stage the equipment at the location delineated for these trailers next to Building A-18 and the M&O Contractor will complete the installation.

During the installation, a temporary security perimeter, a buffer zone, and appropriate space for construction lay-down and work area would be established within the vicinity of the proposed modular building locations. The location of the modular buildings will have a non-permanent, concrete barrier. The five modular buildings would be installed independently. The modular building(s) will be anchored, skirted, and connected to the existing utility services. No new utility trenching or power pole installation is required to connect the five modular buildings to utilities.
