DOCKET NO. 23-41-NG

ORDER GRANTING BLANKET AUTHORIZATION
TO EXPORT NATURAL GAS TO MEXICO

DOE/FECM ORDER NO. 5003

MAY 26, 2023

I. DESCRIPTION OF REQUEST

On March 31, 2023, Enestas, S.A de C.V. (Enestas) filed an application with the Office of Fossil Energy and Carbon Management (FECM) of the Department of Energy (DOE) requesting blanket authorization under section 3 of the Natural Gas Act (NGA)¹ for the authority summarized in the list below. The applicant requests the authorization for a two-year term beginning on May 26, 2023. Enestas is a Mexico corporation with its principal place of business in Mexico City, Distrito Federal, Mexico.

1. Export up to 7.2 billion cubic feet (Bcf) of natural gas to Mexico by pipeline at any point on the border between the United States and Mexico

II. FINDING

DOE has evaluated the application to determine if the proposed import and/or export arrangement meets the public interest requirement of section 3 of the NGA, as amended by section 201 of the Energy Policy Act of 1992 (Pub. L. 102-486). Under NGA section 3(c), imports and exports of natural gas, including liquefied natural gas (LNG), from or to any country with which the United States has entered into a free trade agreement (FTA) requiring national treatment for trade in natural gas and the import of LNG from other international sources are deemed to be consistent with the public interest.² DOE must grant such applications without modification or delay.³ The authorization sought by Enestas meets the NGA section 3(c) criteria, and, therefore, is deemed to be consistent with the public interest.

2. 15 U.S.C. § 717b(c).

If imports and/or exports have occurred, the report must provide the information specified for each applicable activity and mode of transportation, as set forth in the Guidelines for Filing Monthly Reports. These Guidelines are available at: <https://www.energy.gov/fecm/guidelines-filing-monthly-reports>.
