ORDER GRANTING BLANKET AUTHORIZATION
TO IMPORT NATURAL GAS FROM CANADA , AND
TO EXPORT NATURAL GAS TO MEXICO

DOE/FECM ORDER NO. 5008

MAY 26, 2023

I. DESCRIPTION OF REQUEST

On April 19, 2023, Ecogas Mexico S. de R.L. de C.V. (Ecogas Mexico) filed an application with the Office of Fossil Energy and Carbon Management (FECM) of the Department of Energy (DOE) requesting blanket authorization under section 3 of the Natural Gas Act (NGA)¹ for the authority summarized in the list below. The applicant requests the authorization for a two-year term beginning on July 20, 2023.² Ecogas Mexico is a Mexico limited liability company with its principal place of business in Mexicali, Baja California Norte, Mexico.

1. Import natural gas from Canada by pipeline at any point on the border between the United States and Canada
2. Export natural gas to Mexico by pipeline at any point on the border between the United States and Mexico

Import and export authority was requested for up to a combined total volume equivalent to 35 billion cubic feet (Bcf) of natural gas.

1. Authority to regulate the imports and exports of natural gas, including liquefied natural gas, under section 3 of the NGA (15 U.S.C. § 717b) has been delegated to the Assistant Secretary for FECM in Redelegation Order No. S4-DEL-FE1-2023, issued on April 10, 2023. On July 4, 2021, the Office of Fossil Energy changed its name to the Office of Fossil Energy and Carbon Management.

2. Ecogas Mexico's blanket authorization, granted in DOE/FE Order No. 4702, extends through July 19, 2023.

II. **FINDING**

DOE has evaluated the application to determine if the proposed import and/or export arrangements meet the public interest requirement of section 3 of the NGA, as amended by section 201 of the Energy Policy Act of 1992 (Pub. L. 102-486). Under NGA section 3(c), imports and exports of natural gas, including liquefied natural gas (LNG), from or to any country with which the United States has entered into a free trade agreement (FTA) requiring national treatment for trade in natural gas and the import of LNG from other international sources are deemed to be consistent with the public interest.³ DOE must grant such applications without modification or delay.⁴ The authorization sought by Ecogas Mexico meets the NGA section 3(c) criteria, and, therefore, is deemed to be consistent with the public interest.

Pursuant to section 3(c) of the NGA, it is ordered that:
