On July 10, 2023, Escondido Gas Storage & Marketing, LLC (Escondido Gas Storage & Marketing) filed an application with the Office of Fossil Energy and Carbon Management (FECM) of the Department of Energy (DOE) requesting blanket authorization under section 3 of the Natural Gas Act (NGA)¹ for the authority summarized in the list below. The applicant requests the authorization for a two-year term beginning on July 28, 2023. Escondido Gas Storage & Marketing is a Texas limited liability company with its principal place of business in Corpus Christi, Texas.

1. Export up to 19 billion cubic feet (Bcf) of natural gas to Mexico by pipeline at any point on the border between the United States and Mexico

II. FINDING

L. 102-486). Under NGA section 3(c), imports and exports of natural gas, including liquefied natural gas (LNG), from or to any country with which the United States has entered into a free trade agreement (FTA) requiring national treatment for trade in natural gas and the import of LNG from other international sources are deemed to be consistent with the public interest.² DOE must grant such applications without modification or delay.³ The authorization sought by Escondido Gas Storage & Marketing meets the NGA section 3(c) criteria, and, therefore, is deemed to be consistent with the public interest.
