Re: Docket No. 23-87-LNG - Lake Charles Exports, LLC Application

Dear Mrs. Sweeney:

I am writing to express our support for Lake Charles Exports, LLC's new application for authorization to export LNG to non-Free Trade Agreement countries. One of the most compelling reasons to support the Lake Charles LNG Project is its substantial economic impact. The project promises to create a significant number of well-paying jobs, stimulating economic growth in our area. These jobs not only provide livelihoods for local residents but also contribute to a stronger local economy, supporting businesses, and increasing tax revenue for essential public services. In an era marked by economic uncertainty, the Lake Charles LNG Project offers a source of stability and growth.

Moreover, this project aligns with our national energy goals. Natural gas is recognized as a cleaner-burning fuel compared to many alternatives, and it plays a crucial role in reducing carbon emissions. By exporting liquefied natural gas, the United States can help other countries transition to cleaner energy sources, contributing to global efforts to combat climate change. This showcases our commitment to both environmental responsibility and international leadership in clean energy.

In closing, I wholeheartedly endorse the Lake Charles LNG Project as a vital initiative that offers substantial economic benefits, promotes environmental responsibility, enhances energy security, and bolsters our community. I urge you to support this project and help ensure that it moves forward in a manner that benefits us all.

Thank you for your time.

Sincerely,

Landon R.G. Roberts
