draft NEP instructions

All,

Please review.

What did I miss from the discussion today?

Note assignments are by office - some of you are asked provide names to Joe, me or other offices to complete tasks.

If only one or two offices are contribtuing the bulk of the information, I am asking one office to compile the bits prior to sending to me. Saves me some time and I can focus on overall gaps.

Also attached outline Joe was working from.

Please get back to me by 2:30 (if possible) with your comments on the instructions. I will edit and send out "officially"

I will also need to know who will be doing one so I dont' have to bug you all the time.

Attachments for Monday NEP meeting

All.

Reminder that we will be meeting in room 7B-040 at 1:00 on Monday (3/5) to begin the discussion of energy policy options for the national energy policy (phase 2 of our efforts).

Attached is the draft (pdf file) of the interim report that we have been working on (the U.S. energy situation). A version of the report will be going to the Task Force next week (this is still a document for internal discussion only). Also attached is a preliminary list of policy goals to help center the discussion on policy options consistent with those goals.

Look forward to seeing you on Monday.

NE input to chapter one

Hello Margot,

here is the NE input to chapter one... we had a last second glitch with power point and cant get the graphics files to merge in the document... if you can use the graphics files we had in mind separately... we will gladly provide them, but likely you would have the same glitch.

anyway.... hope this made it to you in time.

Trevor.

Chapter 2 comments

Margot - Here are my comments on Chapter 2 1 think this document is on the right track, but still needs some work. In some cases, I've only had time to write notes [in brackets] rather than make actually re-write things. I'll start working on the re-writes now, but wanted to get these comments to you. What's our deadline on this?

Also, apparently the version I have is just slightly different from yours (just a few lines I'm told).

new version section 1

All,

Joe's revised draft. Thanks for all the comments

I didn't take all your suggestions. I tried to make every accommodation but had to make a judgment call about what worked and what didn't.

Still to do:

- 1) Fact checking. Still blanks to fill in. In some cases, we need a source. EIA cannot corroborate without it.
- 2) Please read red edits these are outstanding issues that still need attention and/or discussion.
- 3) Plan on meeting in PO conference room (78-040) on Tuesday 2/20 at 11:30 to discuss draft and get new instructions that will come out of a morning WH meeting.

Subject: Unocal patent, summertime gasoline prices

6651

Joe,

Unocal: Gas patent won't boost prices Tuesday, 20 February 2001 21:27 (ET)

Unocal: Gas patent won't boost prices

By HIL ANDERSON, UPI Chief Energy Correspondent

LOS ANGELES, Feb. 20 (UPI) - Unocal Corp. downplayed fears that Tuesday's U.S. Supreme Court decision not to hear the case against the patents on its reformulated gasoline formulas would lead to another summer of soaring prices at the pump.

The high court decided Tuesday it would not hear an appeal from five of Unocal's fellow oil companies and let stand a lower court ruling that upheld

Unocal's patents and the company's right to seek royalty payments of 5.75 cents per gallon from companies that use its formula.

The uncertainty over the Unocal case last summer was looked at by some analysts as playing a role in the hefty nationwide spike in pump prices that

sullied an otherwise banner year for summer vacation travel.

Unocal executives were elated at Tuesday's news from Washington. Officials said the back royalties could produce annual royalty revenues of \$75-\$150 million, however they insisted that consumers would not bear the brunt.

"We believe that our patented formulations provide refiners and blenders with a cost-effective way of meeting California and federal standards for cleaner-burning gasoline," said Charles R. Williamson, Unocal's chief executive officer. "We estimate that licenses for our patents would add

than 1 cent per gallon to the cost of reformulated gasoline nationwide."

The patent challenge case primarily involved formulas for gasoline used only in California, however refiners nationwide were reluctant to produce fuel that might place them in a position to eventually be sued by Unocal. That reluctance was accompanied by warnings that an overall shortage of RFG could result if refiners could not find a way to blend RFG without stepping on Unocal's toes.

Pump prices nationwide jumped last summer with the increase largely the result of higher crude prices, although shortages of RFG drove retail prices

in the Chicago and Milwaukee areas to \$2 per pallon.

Unocal, however, said that RFG can be made with formulas that differ from theirs, and that the gasoline covered by the five patents in question epplied to "summer" RFG gasoline that has a lower so-called Reid Vapor Pressure - which indicates a slower rate of evaporation - and accounts Tor

less than half of all RFG varieties.

Nevertheless, Williamson said that the time had come for the nation's refiners to meet with Unocal to work out an accommodation.

"Lost in this long dispute is the simple fact that utilizing the formulations in our cleaner-burning gasoline patents can save refiners and consumers millions of dollars while improving air quality," he said. "We think it's time for all of the parties to sit down and negotiate fair and reasonable licensing agreements."

Kelliher, Joseph NEP meeting today

All,

Several of you may still have a Wednesday 2/21 NEP meeting on your calendar (3:30). This is leftover from last week's tentative NEP schedule, which has changed slightly as many of you heard at yesterday's meeting. As of 10:00 today, no NEP meeting is scheduled for later today. However, you are not off the hook as new assignments may come at any time for text and/or review. I'll keep you posted.

Thank you very much for your inputs (and patience) over the last several days.

Margot

Kelliher, Joseph Cc: Subject: new version section 1

All.

Joe's revised draft. Thanks for all the comments

I didn't take all your suggestions. I tried to make every accommodation but had to make a judgment call about what worked and what didn't.

Still to do:

- 1) Fact checking. Still blanks to fill in. In some cases, we need a source. EIA cannot corroborate without it.
- 2) Please read red edits these are outstanding issues that still need attention and/or discussion.
- 3) Plan on meeting in PO conference room (7B-040) on Tuesday 2/20 at 11:30 to discuss draft and get new instructions that will come out of a morning WH meeting.

Subject:

Larry.

Not sure who to give this to. As you can see, Joe wants an exhaustive fact check (not a review, so I am hesitant to send it out 'cause everyone will just have comments). Can you help? I will take a careful look as well.

FW: new draft

All.

Attached is the latest draft of the energy situation section of the NEP plus the regional section. Comments from the CEA, OMB, EPA, Interior, USDA, etc. were incorporated. Your comments are welcome. Not quite sure what the schedule is but sooner is always better. As in Tuesday. I passed along your comments on chapters 4,5,9, and 10 (except EE's comments on chapter 9, which I just received this a.m.) They will go to DOT.

Attachments for Monday NEP meeting

All,

Reminder that we will be meeting in room 7B-040 at 1:00 on Monday (3/5) to begin the discussion of energy policy options for the national energy policy (phase 2 of our efforts).

Attached is the draft (pdf file) of the interim report that we have been working on (the U.S. energy situation). A version of the report will be going to the Task Force next week (this is still a document for internal discussion only). Also attached is a preliminary list of policy goals to help center the discussion on policy options consistent with those goals.

Look forward to seeing you on Monday.

NOTICE

The Office of Critical Infrastructure Protection (OCIP) will host the next quarterly meeting of the Energy Infrastructure Assurance Coordination Group on Tuesday, March 13, from 10:00 a.m. to 12:00 p.m. EDT in Room 1E-245 of the Forrestal Building. Project leaders should be prepared to speak briefly on the status of their respective efforts.

For those who wish to participate via teleconference, the call-in number is 301-903-6472 (reservation number 42323). The agenda is attached below.

Please RSVP via e-mail to ocip@hq.doe.gov. If you have any questions, please call (202) 586-7873.

Ceil Rogers

U.S. Department of Energy Office of Critical Infrastructure Protection (SO-50) 1000 Independence Ave, SW Washington, DC 20585 (202) 586-5137

Agenda

- I. Welcome and Introductions
- II. Status of DOE CIP Activities
- Organizational Issues

1

- National Energy Policy Infrastructure Contribution
- · Stakeholder Outreach Programs
 - National Petroleum Council (NPC) CIP Report Development
 - North American Electricity Reliability Council (NERC) CIP Working Group and Action Plan
 - Industry Security Group and National Defense Executive Reserve Program
 - National Association of State Energy Officials (NASEO) Collaboration
 - OCIP/OPS Pipeline SCADA Security Workshop
- Regional CIP Projects
 - Chicago Metropolitan Area Infrastructure Assurance Preparedness Program
 - Salt Lake City 2002 Olympics Black Ice Exercise Followup/Action Plan
 - California/West Activities
- Status of CIP R&D Program
 - Focus for FY-02
 - Infrastructure Assurance Outreach Program (IAOP)
 - Energy Infrastructure Interdependencies Program (EIIP)
- Other
 - Virtual Analytic Capability
 - Threat/Trends Assessment Capability
 - MOUs and Collaborative Arrangements

III. Other CIP Activities

- Partnership for Critical Infrastructure Security
- Interagency Forum for Infrastructure Protection
- International CIP Collaboration
- OSTP CIP Research and Development Working Group
- Other
- IV. New Business
- V. Adjournment

Margot,

Paula is in Sacramento, en route to Salt Lake City. She'll be back in the office on Friday.

I gave her your message over the phone, and her question to you is, What are the time requirements? We (Paula and Ther staff) can work this over the phone (fax her notes to the hotel, where Paula can write up something this evening, geady for you early Thursday) or, if it can wait until Friday, she can respond when she returns. What's your preference's

Michael

Cc: Kelliher, Joseph

Subject: draft NEP instructions

All.

Please review.

What did I miss from the discussion today?

Note assignments are by office - some of you are asked provide names to Joe, me or other offices to complete tasks.

If only one or two offices are contribtuing the bulk of the information, I am asking one office to compile the bits prior to sending to me. Saves me some time and I can focus on overall gaps.

Also attached outline Joe was working from.

Please get back to me by 2:30 (if possible) with your comments on the instructions. I will edit and send out "officially" ASAP.

I will also need to know who will be doing one so I dont' have to bug you all the time.

Question re. National Energy Policy Writing Guidelines (Chapter Two)

Hi Margot -

I'm working with Darrell Beschen on Chapter Two of the NEP and will be that chapter's lead author. I noticed that it was mentioned in the Authors' Guidance Memo that PO will assist on Chapter Two... would you be able to tell me who the contact person will be from PO for Chapter Two, as well as for Chapter Three?

Thanks so much and I look forward to hearing from you.

Michael

Kelliher, Joseph

draft NEP instructions Subject:

All.

Please review.

What did I miss from the discussion today?

Note assignments are by office - some of you are asked provide names to Joe, me or other offices to complete tasks.

If only one or two offices are contribtuing the bulk of the information, I am asking one office to compile the bits prior to sending to me. Saves me some time and I can focus on overall gaps.

Also attached outline Joe was working from.

1

Please get back to me by 2:30 (if possible) with your comments on the instructions. I will edit and send out "officially" ASAP.

I will also need to know who will be doing one so I don't have to bug you all the time.

NE input to chapter one

Helio Margot,

here is the NE input to chapter one... we had a last second glitch with power point and cant get the graphics files to merge in the document... if you can use the graphics files we had in mind separately... we will gladly provide them, but likely you would have the same glitch.

anyway.... hope this made it to you in time.

Trevor.

NEP draft progress and Monday meeting

All.

As drafts roll in (I've contacted most of you), I will combine and send out (by 6:00). We will be meeting Monday (2/19) at 10:00 to go over the NEP draft. We have to meet in PO's conference room (7B-040) so we don't have to go through the OSEC guards on a holiday (requires a list and pre-notification).

If you are gone by 6:00 and can't access your DOE e-mail from home, leave me a fax number.

Again, only sending to primary points of contact, not sub-section authors.

Joe's revised draft. Thanks for all the comments

I didn't take all your suggestions. I tried to make every accommodation but had to make a judgment call about what worked and what didn't.

Still to do:

- 1) Fact checking. Still blanks to fill in. In some cases, we need a source. EIA cannot corroborate without it:
- 2) Please read red edits these are outstanding issues that still need attention and/or discussion.
- 3) Plan on meeting in PO conference room (7B-040) on Tuesday 2/20 at 11:30 to discuss draft and get new instructions that will come out of a morning WH meeting.

AII.

Several of you may still have a Wednesday 2/21 NEP meeting on your calendar (3:30). This is leftover from last week's tentative NEP schedule, which has changed slightly as many of you heard at yesterday's meeting. As of 10:00 today, no NEP meeting is scheduled for later today. However, you are not off the hook as new assignments may come at any time for text and/or review. I'll keep you posted.

Thank you very much for your inputs (and patience) over the last several days.

Margot asked a question with respect to what media the photographs should be in.

We want the following: either prints, slides, or transparencies.

From: Sent:

To: Subject: Anderson, Margot Tuesday, March 27, 2001 12:41 PM 'Charles_M._Smith@ovp.eop.gov%internet' RE: chapter 8

Charlie,

E-mail to Michelle just bounced back so she still doesn't have chapter 8. Can you fax it to her?

RE: photos

Charlie,

I guess they are more maps and schematics (take a look and you'll see what I mean). We are editing titles and adding captions but I think you will get a better result if we send you the pdf. We can of course print out. Whatever.

Subject: more on formatting

A couple of additional things re. formatting -

Headings - please clearly indicate the hierarchy of your headings.

Bullets - just make sure you indicate what material you want included in a bulleted list.

Text boxes - indicate what information you would like to see in a box but don't do the formatting of the box itself.

Transmit graphics separately with a notation in the text about where the graphic goes.

Karen_Y_Knutson@ovp.eop.gov%internet; John_Fenzel@ovp.eop.gov%internet Subject: status

Margot:

I haven't received chapter 8 to circulate. More importantly, what is status of recommendations. Secondly, what is status of graphics and photographs? We need to get to closure on those as well. Please give me a point of contact for each chapter so we can work that issue in parallel with ongoing work. I'm beginning to get concerned that graphics and photographs may be on the critical path to getting this thing out.

Thanks

Charlie

DeHoratiis, Guido; Melchert, Elena Cc:

Subject: Figure Captions

Per the request of Guido DeHoratiis, attached file provides captions for the figures provided (also attached). The captions are probably longer than desired but the information may be useful for other purposes.

Guido and Elena will review these in the morning and let you know if they would like to shorten them and/or revise, depending on your comments and needs.

Thanks.
