DEPARTMENT OF ENERGY

OFFICE OF FOSSIL ENERGY AND CARBON MANAGEMENT

ALL LNG, LLC

DOCKET NO. 23-108-LNG

ORDER GRANTING BLANKET AUTHORIZATION
TO IMPORT LIQUEFIED NATURAL GAS FROM MEXICO BY TRUCK, AND
TO EXPORT LIQUEFIED NATURAL GAS TO MEXICO BY TRUCK

DOE/FECM ORDER NO. 5065

OCTOBER 30, 2023

I. <u>DESCRIPTION OF REQUEST</u>

On September 26, 2023, All LNG, LLC (All LNG) filed an application with the Office of Fossil Energy and Carbon Management (FECM) of the Department of Energy (DOE) requesting blanket authorization under section 3 of the Natural Gas Act (NGA)¹ for the authority summarized in the list below. The applicant requests the authorization for a two-year term beginning on October 30, 2023. All LNG is a Texas limited liability company with its principal place of business in Houston, Texas.

- 1. Import liquefied natural gas (LNG) from Mexico by truck at any LNG receiving facility in the United States and its territories
- 2. Export LNG to Mexico by truck from any LNG departure facility in the United States and its territories

Import and export authority was requested for up to a combined total volume equivalent to 36.5 billion cubic feet (Bcf) of natural gas.

^{1.} Authority to regulate the imports and exports of natural gas, including liquefied natural gas, under section 3 of the NGA (15 U.S.C. § 717b) has been delegated to the Assistant Secretary for FECM in Redelegation Order No. S4-DEL-FE1-2023, issued on April 10, 2023.

II. FINDING

DOE has evaluated the application to determine if the proposed import and/or export arrangements meet the public interest requirement of section 3 of the NGA, as amended by section 201 of the Energy Policy Act of 1992 (Pub. L. 102-486). Under NGA section 3(c), imports and exports of natural gas, including LNG, from or to any country with which the United States has entered into a free trade agreement (FTA) requiring national treatment for trade in natural gas and the import of LNG from other international sources are deemed to be consistent with the public interest.² DOE must grant such applications without modification or delay.³ The authorization sought by All LNG meets the NGA section 3(c) criteria and, therefore, is deemed to be consistent with the public interest.

ORDER

Pursuant to section 3(c) of the NGA, it is ordered that:

- A. All LNG is authorized for the activity described in the list below. This authorization shall be effective for a two-year term beginning on October 30, 2023, and extending through October 29, 2025.
 - 1. Import LNG from Mexico by truck at any LNG receiving facility in the United States and its territories
 - 2. Export LNG to Mexico by truck from any LNG departure facility in the United States and its territories

The applicant is authorized to import and export up to a combined total volume equivalent to 36.5 Bcf of natural gas.

B. **Monthly Reports:** With respect to the imports and/or exports authorized by this Order, All LNG shall file with the Office of Regulation, Analysis, and Engagement, within 30 days following the last day of each calendar month, a report on Form FE-746R indicating whether imports and/or exports have been made. Monthly reports must be filed whether or not initial deliveries have begun. If no imports and/or exports have been made, a report of "no activity" for that month must be filed. If imports and/or exports have occurred, the report must provide the information specified for each applicable activity and mode of transportation, as set forth in the Guidelines for Filing Monthly Reports. These Guidelines are available at: https://www.energy.gov/fecm/guidelines-filing-monthly-reports.

(Approved by the Office of Management and Budget under OMB Control No. 1901-0294)

C. The first monthly report required by this Order is due not later than December 30, 2023, and should cover the reporting period from October 30, 2023 through November 30, 2023.

Issued in Washington, D.C., on October 30, 2023.
