

The U.S. Department of Energy's Hydrogen and Fuel Cell Technologies Office (HFTO) invites stakeholders from industry, academia, and government to two hydrogen infrastructure workshops:

## **Hydrogen Infrastructure Strategies to Enable Deployment in High-Impact Sectors**

*January 17-18, 2024 - The Curtis Hotel, Denver, CO*

Exploring RD&D strategies to accelerate clean hydrogen deployment in medium/heavy-duty transportation, industrial and chemical processes, and energy storage.

## **Hydrogen Infrastructure Priorities to Enable Deployment in High-Impact Sectors**

*February 27-28, 2024 - The Westin Hotel, Alexandria, VA*

Identifying priorities and quantitative targets for clean hydrogen delivery and storage technologies.
