

# Industrial Energy Consumers of America (IECA)

The Voice of the Industrial Energy Consumers

## Membership Info

Corporate Member — Membership can be considered by any manufacturing company who is a significant consumer of energy, defined for this purpose as energy usage attaining the rate of 1 trillion Btu's or more per year; whose primary line of business is categorized under any NAICS code of 31, 32 or 33; and which supports the policies and positions of the organization as adopted from time to time by the Board of Directors; is eligible for membership.
