Key Developments

- In addition to hosting workshops, attended workshops, conferences and engaging in discussion with stakeholder groups
 - For example, League of Women Voters lead to the Piedmont Environmental Alliance (PEA), & University of Evansville in IL
 - PEA partners with organizations, corporations, individuals, and communities across the region to influence policy and practice on environmental issues
 - Confirming September 17 date
 - Follow-up with contacts made at the NEI Used Fuel Management Conference, e.g., Prairie Island Tribal Community
- Social media communication/marketing incorporating short/one-minute trailer video
- Tribal Consent Based Coalition (TCBC) brochure development for its outreach leave introduction or leave behind

Key Observations

- Dynamic multimedia communications of Consortium work necessary, e.g., virtual/in-person meetings to discuss Consortium work & leads into communities
- Analytical results from the Raleigh event have been obtained which we expect to present at the RPSD topical colocated with the ANS winter meeting this November.
 - This should also result in our first peer reviewed journal publication.
- Incorporation of lessons learned from initial workshop (Raleigh NC)
 - Tailor presentation/discussion format
 - Appreciation of larger discussion/questions on nuclear energy, giving context to our workshop
 - Review of survey questions & a few subsequent question reframing
 - Assistance from other nuclear organization around communication materials
