

NEPA Categorical Exclusion Determination Form

Program or Field Office: U.S. Department of Energy (DOE) Office of Legacy Management (LM)

Project Title: Install Carports and Electric Vehicle Charging Station at the Legacy Management Field Support Center at Grand Junction, Colorado

Location: Legacy Management Field Support Center at Grand Junction, Colorado

Proposed Action or Project Description:

The DOE-LM is proposing to install carports and a patented Beam EV ARC solar-powered level 2 dual-port electric vehicle charging station (EVCS) in the U.S. General Services Administration (GSA) lot at the Legacy Management Field Support Center (LMFSC) at Grand Junction, Colorado, in Mesa County, just outside of Grand Junction city limits. As part of environmental stewardship, LM must acquire zero-emission electric vehicles as vehicles are replaced in the LM fleet to meet the requirements in Executive Order 14057 Section 102(a)(ii), "100 Percent Zero-Emission Vehicle Acquisitions by 2035, Including 100 Percent Zero-Emission Light-Duty Vehicle Acquisitions by 2027." In support of this goal, one EVCS would be installed within the LMFSC GSA lot at the southwest exterior corner of Building 7. The need for the EVCS would provide a charging station for electric vehicles and the carports would provide shelter for all-terrain vehicles and other LM property and assets.

Categorical Exclusion(s) Applied:

- **B1.15 Support Buildings**
- **B5.16 Solar Photovoltaic Systems**
- **B5.23 Electric Vehicle Charging Stations**

For the complete DOE National Environmental Policy Act (NEPA) regulations regarding categorical exclusions, including the full text of each categorical exclusion, see Subpart D of Title 10 *Code of Federal Regulations* Section 1021 (10 CFR 1021).

Regulatory Requirements in 10 CFR 1021.410(b): (See full text in regulation)

The proposal fits within a class of actions that is listed in Appendix A or B to 10 CFR Part 1021, Subpart D

To fit within the classes of actions listed in 10 CFR Part 1021, Subpart D, Appendix B, a proposal must be one that would not: (1) threaten a violation of applicable statutory, regulatory, or permit requirements for environment, safety, and health, or similar requirements of DOE or Executive Orders; (2) require siting and construction or major expansion of waste storage, disposal, recovery, or treatment facilities (including incinerators), but the proposal may include categorically excluded waste storage, disposal, recovery, or treatment actions or facilities; (3) disturb hazardous substances, pollutants, contaminants, or CERCLA-excluded petroleum and natural gas products that preexist in the environment such that there would be uncontrolled or unpermitted releases; (4) have the potential to cause significant impacts on environmentally sensitive resources, including, but not limited to, those listed in paragraph B(4) of 10 CFR Part 1021, Subpart D, Appendix B; (5) involve genetically engineered organisms, synthetic biology, governmentally designated noxious weeds, or invasive species, unless the proposed activity would be contained or confined in a manner designed and operated to prevent unauthorized release into the environment and conducted in accordance with applicable requirements, such as those listed in paragraph B(5) of 10 CFR Part 1021, Subpart D, Appendix B.

There are no extraordinary circumstances related to the proposal that may affect the significance of the environmental effects of the proposal.

The proposal has not been segmented to meet the definition of a categorical exclusion. This proposal is not connected to other actions with potentially significant impacts (40 CFR 1501.9(e)(1)), is not related to other actions with individually insignificant but cumulatively significant impacts (40 CFR 1508.1(g)(3)), and is not precluded by 40 CFR 1506.1 or 10 CFR 1021.211 concerning limitations on actions during preparation of an environmental impact statement.

Based on my review of the proposed action, as NEPA Compliance Officer (as authorized by the LM Director per DOE Policy 451.1), I have determined that the proposed action fits within the specified classes of action, the other regulatory requirements set forth above are met, and the proposed action is hereby categorically excluded from further NEPA review.
