The U.S. Department of Energy 2024 Housing Innovation Award Winners

The DOE Housing Innovation Awards honor builders who are spurring the housing industry to construct more efficient, healthy, and resilient homes certified to the DOE Zero Energy Ready Homes (ZERH) program requirements. Award-winning homes are featured in the [Tour of Zero](#) on the ZERH website.

The [2024 Housing Innovation Award winners](#) will be honored at the Energy & Environmental Building Alliance's High Performance Home Building Summit in Salt Lake City, Utah, Oct. 1-3, 2024.

Building America Shifts Focus to Tackle Residential Retrofit Challenges

For 30 years, the U.S. Department of Energy (DOE)'s Building America program has leveraged cutting-edge building science research to develop innovations and best practices in energy efficiency, indoor air quality and comfort, durability, and affordability, focusing on residential new construction. Building America is now expanding its expertise to address challenges with decarbonizing the existing U.S. housing stock.
