# Leveraging strategic investments to meet compliance and maintain cleanup momentum

## *Environmental Management: A National Responsibility*

- We reduce risks and protect our workers, our communities and the environment through cleanup
- Our work is urgent and essential to the health and economic vitality of our communities and the nation and positions our Sites for future missions and use
- Our mission is not discretionary - it is a congressional mandate to D&D the gaseous diffusion plant under the U.S. Energy Policy Act of 1992 and a federal obligation to address the cold war environmental legacy cleanup and honor our regulatory commitments
- Time is not on our side – costs and risks increase over time
- We have demonstrated value for the American Taxpayer by delivering significant progress in the past several years in reducing risks and the overall liability - but our work is not done
- The Environmental Management portfolio is one of our nation's largest liabilities - we have a responsibility to relieve future generations of this environmental and financial liability

# Leveraging strategic investments to meet compliance and maintain cleanup momentum

## Program Priorities

- Essential activities to maintain a safe, secure, and compliant posture in the EM complex
- Radioactive tank waste stabilization, treatment, and disposal
- Spent (used) nuclear fuel storage, receipt, and disposition
- Special nuclear material consolidation, processing, and disposition
- High priority groundwater remediation
- Transuranic and mixed/low-level waste disposition
- Soil and groundwater remediation
- Excess facilities deactivation and decommissioning (D&D)

# Leveraging strategic investments to meet compliance and maintain cleanup momentum

## Economic Benefits from EM Cleanup Mission

Received \$6 Billion in Recovery Act funds

9,362 jobs created/saved with Recovery Act funds

\$3.7B of Recovery Act funding paid to date

\$1.8B in Recovery Act prime and subcontracts awarded to small business\*

\$1.7B out of \$6.1B in Base prime and subcontracts awarded to small businesses in FY 2010

\$7B in future savings and cost avoidances

## EM's Journey to Excellence

1. Complete the three major tank waste projects within the approved baselines.
2. Reduce the life-cycle costs and accelerate the cleanup of the Cold War legacy.
3. Complete disposition of 90 percent of legacy transuranic (TRU) waste by the end of 2015.
4. Reduce the EM legacy footprint by 40 percent by the end of 2011, leading to approximately 90 percent reduction by 2015.
5. Improve safety, security and quality assurance towards a goal of zero accidents, incidents, and defects.
6. Improve contract and project management with the objective of delivering results on time, and within cost.
7. Achieve excellence in management and leadership, making EM one of the best places to work in the Federal Government.

**EM Environmental Management**

# Leveraging strategic investments to meet compliance and maintain cleanup momentum

## Goal 1: Complete the Three Major Tank Waste Projects

- Use best scientific resources
- Provide necessary tools
- Establish an integrated design/engineering testing and commissioning framework
- Use Construction Project Reviews (CPRs)
- Align contract fee with completion of each capital asset
- Develop a Code of Record, only accept significant changes

### Key Strategies

- <10% variance for project cost and schedule performance indices
- 90% of CPRs are performed as scheduled with successively fewer recommendations
- 90% of associated Corrective Actions finished within six months.
- Interim success parameters

### Key Success Indicators

#### Three Major Tank Waste Projects:

- Savannah River Site – Salt Waste Processing Facility (SWPF)
- Hanford – Waste Treatment Plant (WTP)
- Idaho National Laboratory – Sodium Bearing Waste Treatment Facility (SBWTF)

10

# Leveraging strategic investments to meet compliance and maintain cleanup momentum

## Goal 2: Reduce Life-Cycle Costs and Accelerate Cleanup

- Prioritize funding spent on technology development and deployment (TDD)
- Evaluate input from expert groups (NAS, EM-TEG, EMAB)
- Demonstrate the benefit of deploying state-of-the-art technologies and/or more effective strategies

### Key Strategies

- EM Enhanced Tank Waste Strategic Investment Portfolio accelerates the tank waste cleanup schedule by 6 years at Savannah River and 7 years at Hanford, and reduces EM's life-cycle cost by \$3 billion at Savannah River and \$16 billion at Hanford
- By the end of 2011, demonstrate the benefit of deploying state-of-the-art technologies and/or more effective strategies.
- By the end of 2012, Hanford and SRS baselines reflect the new transformational technologies required

### Key Success Indicators

11

# Leveraging strategic investments to meet compliance and maintain cleanup momentum

## Goal 6: Improve Contract and Project Management

- Improve and expand the use of independent reviews
- Strengthen the integration of acquisition and project management
- Complete restructuring of the EM cleanup portfolio into capital projects and operations
- Become a stronger owner
- Develop EM's ability to perform Independent Government Cost Estimates and Reviews
- Provide training in contract and project management

### Key Strategies

- Obtain EM removal from the GAO High-Risk List
- Project cost performance indices are between 0.9 and 1.15
- Approve contract performance baselines and change orders within 180 days
- Maintain project and contract alignment
- Implement partnering agreements for all major contracts
- Projects have certified FPDs and contract specialists

### Key Success Indicators

**EM Environmental Management**

safety ♦ performance ♦ cleanup ♦ closure

12

# Leveraging strategic investments to meet compliance and maintain cleanup momentum

## Goal 7: Excellence in Management and Leadership

- Benchmark best-in-class agencies and develop improvement plans
- Utilize surveys to focus on key management and leadership attributes
- Create an EM Continuous Improvement Program

### Key Strategies

- Performance improves as measured through regular reviews
- Positive trends in employee surveys

### Key Success Indicators
