Subject: Docket No. 14-179-LNG
Date: Monday, February 09, 2015 4:15:35 PM

I have just been told of the proposal to export liquid natural gas and am writing to strongly oppose it. Damage to our environment and our resources for what gain? Stop this effort for our country, our children and our future. And please extend the period for comment on this issue.

Sincerely,

Antonia Lake
