Subject: FE Docket No. 14-179-LNG
Date: Monday, February 09, 2015 4:29:10 PM

We need to stop building more infrastructure that facilitates the continued use of fossil fuels. The science is very clear that we need to be reducing our greenhouse gas emissions to zero and then start pulling CO2 out of the atmosphere and sequestering it. Facilitating LNG exports moves us in the wrong direction. Instead, we should be focusing our efforts on a rapid transition to reduced energy use and renewable energy sources.

I ask that you not allow the export of LNG.

Wes Ernsberger
Owego, NY
