Re: Cameron LNG LLC, FE Docket No. 15-67-LNG NFTA

Dear Deputy Assistant Secretary Paula Gant,

On behalf of Governor Bobby Jindal, I am pleased to issue this letter of support for Cameron LNG's application to increase their approved export volumes by 1.41 bcf/day of domestically produced LNG by constructing two additional liquefaction trains – Trains 4 and 5 (Expansion Project).

Louisiana is proud to be one of our nation's leading providers of the energy resources necessary to grow our economy and establish the energy security we must have as a nation in this ever changing global energy landscape. Louisiana Economic Development has worked with Cameron LNG for the past seven years as we have witnessed their growth and investment in Louisiana. Their export facility is currently generating thousands of construction jobs and tremendous economic activity in the region. Upon completion, this operation will employ over 140 people and consistently contribute to the economy of Southwest Louisiana.

Sincerely,

A handwritten signature in black ink, appearing to read 'Steven Grissom'.
