FE DOCKET NO. 15-136-NG

ORDER GRANTING BLANKET AUTHORIZATION TO IMPORT  
AND EXPORT NATURAL GAS FROM AND TO CANADA  
AND VACATING PRIOR AUTHORIZATION

DOE/FE ORDER NO. 3722

OCTOBER 5, 2015

## I. DESCRIPTION OF REQUEST

On September 4, 2015, Planet Energy Corp. (Planet Energy) filed an application with the Office of Fossil Energy (FE) of the Department of Energy (DOE) under section 3 of the Natural Gas Act (NGA)<sup>1</sup> for blanket authorization to import and export up to a combined total of 1 billion cubic feet (Bcf) of natural gas from and to Canada. The applicant requests the authorization be granted for a two-year term beginning on March 19, 2015.

Previously, on March 19, 2015, Planet Energy received an authorization in DOE/FE Order No. 3608 solely to import natural gas from Canada for a two-year term beginning on March 19, 2015, and extending through March 18, 2017. On September 3, 2015, Planet Energy asked DOE/FE to vacate Order 3608 retroactively, effective as of March 19, 2015, because Planet Energy wishes to both import and export natural gas to Canada as set forth in the current application. Therefore, DOE/FE Order 3608 will be vacated and superseded by the authorization in this Order. Both the vacatur of DOE/FE Order No. 3608 and this Order are effective retroactively as of March 19, 2015.

Planet Energy is a Canadian corporation with its principal place of business in Toronto, Ontario, Canada.

## II. FINDING

The application has been evaluated to determine if the proposed import and/or export arrangement meets the public interest requirement of section 3 of the NGA, as amended by section 201 of the Energy Policy Act of 1992 (Pub. L. 102-486). Under section 3(c), the import and export of natural gas, including liquefied natural gas (LNG), from and to a nation with which

<sup>1</sup> The authority to regulate the imports and exports of natural gas, including liquefied natural gas, under section 3 of the NGA (15 U.S.C. § 717b) has been delegated to the Assistant Secretary for FE in Redelegation Order No. 00-006.02F issued on November 17, 2014.

there is in effect a free trade agreement requiring national treatment for trade in natural gas and the import of LNG from other international sources are deemed to be consistent with the public interest, and applications for such imports and exports must be granted without modification or delay. The authorization sought by Planet Energy to import and export natural gas from and to Canada, a nation with which a free trade agreement is in effect, meets the section 3(c) criterion and, therefore, is consistent with the public interest. This Order authorizes transactions with terms of no longer than two years.

#### ORDER

Pursuant to section 3 of the NGA, it is ordered that:

A. Planet Energy is authorized to import and export up to a combined total of 1 Bcf of natural gas from and to Canada, pursuant to transactions that have terms of no longer than two years. (Mcf); (5) the average purchase price of gas per million British thermal units (MMBtu) at the international border; (6) the name of the supplier(s); (7) the name of the U.S. transporter(s); (8) the estimated or actual duration of the supply agreement(s); and (9) for imports, the geographic markets(s) served (list State(s), U.S. Census Region(s), or general U.S. geographic area(s)).

(Approved by the Office of Management and Budget under OMB Control No. 1901-0294)
