On September 6, 2016, Liberty Utilities (EnergyNorth Natural Gas) Corp. d/b/a Liberty Utilities (Liberty Utilities) filed an application with the Office of Fossil Energy (FE) of the Department of Energy (DOE) under section 3 of the Natural Gas Act (NGA)¹ for blanket authorization to import and export up to a combined total of 5 billion cubic feet (Bcf) of natural gas from and to Canada. The applicant requests the authorization be granted for a two-year term beginning on November 1, 2016.² Liberty Utilities is a New Hampshire corporation with its principal place of business in New Londonderry, New Hampshire. Under section 3(c), the import and export of natural gas, including liquefied natural gas (LNG), from and to a nation with which there is in effect a free trade agreement requiring national treatment for trade in natural gas and the import of LNG from other international sources are deemed to be consistent with the public interest, and applications for such imports and exports must be granted without modification or delay. The authorization sought by Liberty Utilities to import and export natural gas from and to Canada, a nation with which a free trade agreement is in effect, meets the section 3(c) criterion

¹ The authority to regulate the imports and exports of natural gas, including liquefied natural gas, under section 3 of the NGA (15 U.S.C. § 717b) has been delegated to the Assistant Secretary for FE in Redelegation Order No. 00-006.02, issued on November 17, 2014.

² Liberty Utilities's blanket authorization to import and export natural gas to and from Canada, granted in DOE/FE Order No. 3504 on October 2, 2014, extends through October 31, 2016.

and, therefore, is consistent with the public interest. This Order authorizes transactions with terms of no longer than two years.
