**DEPARTMENT OF ENERGY**

[FE Docket No. 16-141-LNG]

**Chevron U.S.A. Inc.; Application for Blanket Authorization to Export Previously Imported Liquefied Natural Gas on a Short-Term Basis**

**AGENCY:** Office of Fossil Energy, DOE.

**ACTION:** Notice of application.

**SUMMARY:** The Office of Fossil Energy (FE) of the Department of Energy (DOE) gives notice of receipt of an application (Application), filed on September 22, 2016, by Chevron U.S.A. Inc. (Chevron), requesting blanket authorization to export liquefied natural gas (LNG) previously imported into the United States from foreign sources in an amount up to the equivalent of 72 billion cubic feet (Bcf) of natural gas on a short-term or spot market basis for a two-year period commencing on December 8, 2016 or as soon thereafter as the authorization is granted. The LNG would be exported from the Sabine Pass LNG Terminal owned by Sabine Pass LNG, L.P., in Cameron Parish, Louisiana, to any country with the capacity to import LNG via ocean-going carrier and with which trade is not prohibited by U.S. law or policy. Chevron states that it has contracted for 1.0 Bcf/day of terminal capacity from Sabine Pass LNG, L.P., for an initial term of 20 years that will expire June 30, 2029, with the option to extend the term for another 20 years. Chevron states that it does not seek authorization to export domestically-produced natural gas supplies, and notes that it currently holds a blanket authorization to import LNG from various international sources by vessel in an amount up to the equivalent of 800 Bcf of natural gas. The Application was filed under

section 3 of the Natural Gas Act (NGA). Additional details can be found in Chevron's Application, posted on the DOE/FE website at:

## **SUPPLEMENTARY INFORMATION:**

### **DOE/FE Evaluation**

The Application will be reviewed pursuant to section 3 of the NGA, as amended, and the authority contained in DOE Delegation Order No. 00-002.00N (July 11, 2013) and DOE Redelelegation Order No. 00-002.04F (July 11, 2013). In reviewing this LNG export application, DOE will consider domestic need for the gas, as well as any other issues determined to be appropriate, including whether the arrangement is consistent with DOE's policy of promoting competition in the marketplace by allowing commercial parties to freely negotiate their own trade arrangements. Parties that may oppose this application should comment in their responses on these issues.

The National Environmental Policy Act (NEPA), 42 U.S.C. § 4231, *et seq.*, requires DOE to give appropriate consideration to the environmental effects of its proposed decisions. No final decision will be issued in this proceeding until DOE has met its NEPA responsibilities.
