

Power Delivery Subcommittee Update

John Adams Subcommittee Chair

Electricity Advisory Committee

September 14, 2017

Current Work T/D

- Working on a paper examining the work of DOE on the Transmission – Distribution Interface as increasing amounts of distribution interconnected resources (DER) are added to the grid.
- Heather Sanders leading effort
- With help of ICF/DOE created list of documentation of DOE activities for participants to review.

Methodology T/D

- Divided country into regions
 - Selected interviewees from each region
 - CA/West
 - Midwest
 - ERCOT
 - Organized East Coast/PJM
 - Non-Organized East Coast
 - International
 - Interviewing representatives from each region
-

Methodology T/D

- Intent is to examine differing conditions across different regulatory and physical paradigms, and consider DOE activities in light of these differences.

Working to define next work product

- Generated a list of proposed topics, and reduced to two under consideration.
- Subcommittee members prefer to defer selecting next work product until new members active.
