FE Docket No. 16-205-LNG  
Registration of Entity to Export LNG

Dear Mr. Anderson:

In the Department of Energy, Office of Fossil Energy's Order No. 4046 issued June 2, 2017, in the above referenced docket, Dominion Energy Cove Point LNG, LP ("DECP") was granted short-term, blanket authority to export liquefied natural gas (LNG); (1) to nations with whom the United States has entered into a free trade agreement requiring the national treatment of natural gas, and (2) to non-free trade agreement nations. The order permits DECP to use its authorization to export LNG as an agent for other entities, after registering the other parties with DOE/FE.

DECP now submits the information necessary to register Shell NA LNG LLC ("SNALNG") as an entity for which DECP will utilize its authorization to export LNG, in accordance with the terms of Ordering Paragraph F of DOE/FE Order No. 4046. Additional information required for the registration of SNALNG is provided in the letter from SNALNG, dated August 18, 2017, attached as Attachment A.

If you have any questions regarding the registration of SNALNG or related matters, please contact the undersigned counsel for DECP.

Sincerely,

A handwritten signature in blue ink, appearing to read "M. H. Peters".
