Comment:	Air in America is good to great, everyone can get a Air app for personal computers and smart phones. agency does not need to listen to Fake Science reviews which are inappropriate as they contain errors of omission and/or commission and are neither convincing nor authoritative. Many of the conclusions are incomplete, inaccurate, lack objectivity and consequently only serve to confuse the issue. American has some of the best air in the world. Just look at this air app, it gives the air everywhere in world. www. air-matters.com compare Air in America to other nations like china and India see for yourself. Most of the children affected by air pollution live
-----------------	--

in India and elsewhere in South Asia and in parts of Africa, children who are exposed to air that exceeds the WHO minimum air quality standard, 620 million, live in South Asia, followed by 520 million in Africa and 450 million in East Asia and the Pacific region. In China children wear masks going to school and are warned not to take part in outdoor activities. classroom of schools need air purifiers. Air in Beijing is an unbearable stage. in China 6716 children die of air pollution-related diseases every year. The air in Beijing has an annual average of 85 g/m³ of PM_{2.5} particles. That's 8.5 times the WHO safe level. China; Polluting industries in 28 china northern cities. 1,032,833 people die from an air pollution-related disease each year. *🌐
