DEPARTMENT OF ENERGY

[FE Docket No. 14-98-LNG]

SCT&E LNG, LLC; Amendment of Notice of Application for Long-Term, Multi-Contract Authorization To Export Liquefied Natural Gas to Non-Free Trade Agreement Countries

AGENCY: Office of Fossil Energy, DOE.

ACTION: Amended notice of application and extension of comment period.

SUMMARY: The Office of Fossil Energy (FE) of the Department of Energy (DOE) is amending a notice of application filed by SCT&E LNG, LLC (SCT&E LNG) on July 24, 2014, and published in the *Federal Register* on December 19, 2014 (Notice).¹ The amended notice adds two environmental documents to the record in the SCT&E LNG docket. It also extends the Public Comment Period, ending February 17, 2015, by 20 days, to March 12, 2015, to ensure that interested parties have sufficient opportunity to review the documents in filing any protests, motions to intervene, notices of intervention, or written

comments in response to the Application.

DATES: The Public Comment Period, ending February 17, 2015, is extended by 20 days to March 12, 2015. Protests, motions to intervene or notices of intervention, as applicable, requests for additional procedures, and written comments are to be filed using procedures detailed in the Public Comment Procedures section of the Notice (79 FR 75796) no later than 4:30 p.m., Eastern time.

ADDRESSES: Interested persons may submit comments by any of the following methods:

Cassandra Bernstein, U.S. Department of Energy, Office of the Assistant General Counsel for Electricity and Fossil Energy, Forrestal Building, 1000 Independence Avenue SW., Washington, DC 20585, (202) 586-9793.

SUPPLEMENTARY INFORMATION: On December 19, 2014, DOE/FE gave notice of receipt of an application (Application), filed on July 24, 2014 (79 FR 75796). The Application, filed under section 3(a) of the Natural Gas Act (NGA), requests long-term, multi-contract authorization to export domestically produced liquefied natural gas (LNG) to any country with which the United States does not have a free trade agreement requiring national treatment for trade in natural gas and with which trade is not prohibited by U.S. law or policy (non-FTA countries). As set forth in the Notice, SCT&E LNG seeks authorization to export the LNG in

a volume up to 12 million metric tons per annum, which SCT&E LNG states is equivalent to approximately 1.6 billion cubic feet (Bcf) per day of natural gas (or 584 Bcf per year). SCT&E LNG seeks authorization to export the LNG by vessel from its proposed LNG terminal, which SCT&E LNG intends to construct, own, and operate on Monkey Island in the Calcasieu Ship Channel in Cameron Parish, Louisiana.²

In the prior Notice, DOE/FE invited protests, motions to intervene, notices of intervention, and written comments on the Application during a 60-day Public Comment Period, which is currently scheduled to close no later than 4:30 p.m., Eastern time, February 17, 2015. After publication of the Notice, however, DOE/FE determined that it had inadvertently omitted two environmental documents from the record in the SCT&E LNG docket that potentially bear on SCT&E LNG's requested authorization. Therefore, DOE/FE is amending one section of the Notice, entitled "DOE/FE Evaluation," to add the two documents identified below to the SCT&E LNG docket. Additionally, to provide interested parties with sufficient opportunity to review these documents in filing any protests, motions to intervene, notices of intervention, or written comments, DOE/FE is extending the comment period by 20 days. All other provisions and procedures of the Notice remain the same. The "DOE/FE Evaluation" section of the Notice is now amended to read as follows:

FDOE/FE Evaluation

The Application will be reviewed pursuant to section 3(a) of the NGA, 15 U.S.C. 717b(a), and DOE will consider any issues required by law or policy. To the extent determined to be relevant, these issues will include the domestic need for the natural gas proposed to be exported, the adequacy of domestic natural gas supply, U.S. energy security, and the cumulative impact of the requested authorization and any other LNG export application(s) previously approved on domestic natural gas supply and demand fundamentals. DOE may also consider other factors bearing on the public interest, including the impact of the proposed exports on the U.S. economy (including GDP, consumers, and industry), job creation, the U.S. balance of trade, and international considerations; and whether the authorization is consistent

with DOE's policy of promoting competition in the marketplace by allowing commercial parties to freely negotiate their own trade arrangements. Additionally, DOE will consider the following environmental documents:

- *Addendum to Environmental Review Documents Concerning Exports of Natural Gas From the United States*, 79 FR 48132 (Aug. 15, 2014);³ and
- *Life Cycle Greenhouse Gas Perspective on Exporting Liquefied Natural Gas From the United States*, 79 FR 32260 (June 4, 2014).⁴

Parties that may oppose this Application should address these issues in their comments and/or protests, as well as other issues deemed relevant to the Application.

The National Environmental Policy Act (NEPA), 42 U.S.C. § 4321 *et seq.*, requires DOE to give appropriate consideration to the environmental effects of its proposed decisions. No final decision will be issued in this proceeding until DOE has met its environmental responsibilities.

Commission to Review the Effectiveness of the National Energy Laboratories

AGENCY: Department of Energy.

ACTION: Request for comments.

SUMMARY: This notice announces an opportunity to comment on the proposed Interim Report of the Commission to Review the Effectiveness of the National Energy Laboratories (Commission). The Commission was created pursuant section 319 of the Consolidated Appropriations Act, 2014, Public Law 113-76, and in accordance with the provisions of the Federal Advisory Committee Act (FACA), as amended, 5 U.S.C., App. 2. The report will be posted to the Web site: <http://energy.gov/labcommission> on Friday, February 13, 2015.

DATES: Interested persons are invited to submit written comments on or before

³ The Addendum and related documents are available at: <http://energy.gov/fe/draft-addendum-environmental-review-documents-concerning-exports-natural-gas-united-states>.

⁴ The Life Cycle Greenhouse Gas Report is available at: <http://energy.gov/fe/life-cycle-greenhouse-gas-perspective-exporting-liquefied-natural-gas-united-states>.

Friday, February 20, 2015. There will also be the opportunity to provide public comment in person at the Commission meeting on February 24, 2015 (9:00 a.m.–12:00 p.m.).

ADDRESSES: Comments should be:

- *Emailed to:* crenel@hq.doe.gov.
- *Or mailed to:* Karen Gibson, Designated Federal Officer, U.S. Department of Energy, 1000 Independence Avenue SW., Washington, DC 20585.

- For those interested in providing public comment in person, the February 24th public meeting will take place at the Hilton at Mark Center, Birch Conference Room, 500 Seminary Road, Alexandria VA.

FOR FURTHER INFORMATION CONTACT:

Karen Gibson, Designated Federal Officer; email crenel@hq.doe.gov; telephone (202) 586-3787.

SUPPLEMENTARY INFORMATION:

Background: The Commission was established to provide advice to the Secretary of Energy on the Department's national laboratories. The Commission will review the DOE national laboratories for alignment with the Department's strategic priorities, clear and balanced missions, unique capabilities to meet current energy and national security challenges, appropriate size to meet the Department's energy and national security missions, and support of other Federal agencies. The Commission will also look for opportunities to more effectively and efficiently use the capabilities of the national laboratories and review the use of laboratory directed research and development (LDRD) to meet the Department's science, energy, and national security goals.

Given the broad scope and aggressive timeline for the report, the Secretary of Energy and Congress agreed to split the study into two phases. The Interim Report contains the preliminary observations and recommendations found in Phase 1 of the study, which consisted of literature review, visits to five of the National Laboratories; interviews with staff from across the National Laboratories, DOE, other Federal agencies, companies, other non-governmental organizations, and additional interested parties; and presentations at public Commission meetings. In Phase 2, the Commission will refine the conclusions of the Interim Report and focus on operational issues affecting the efficiency and effectiveness of the work of the National Laboratories in carrying out their missions. The commissioners will visit the remaining 12 National Laboratories.

The Final Report is anticipated in early Fall 2015.

Issued in Washington, DC, on February 10, 2015.

LaTanya R. Butler,

Deputy Committee Management Officer.
