# The Economics of U.S. Ethanol Demand

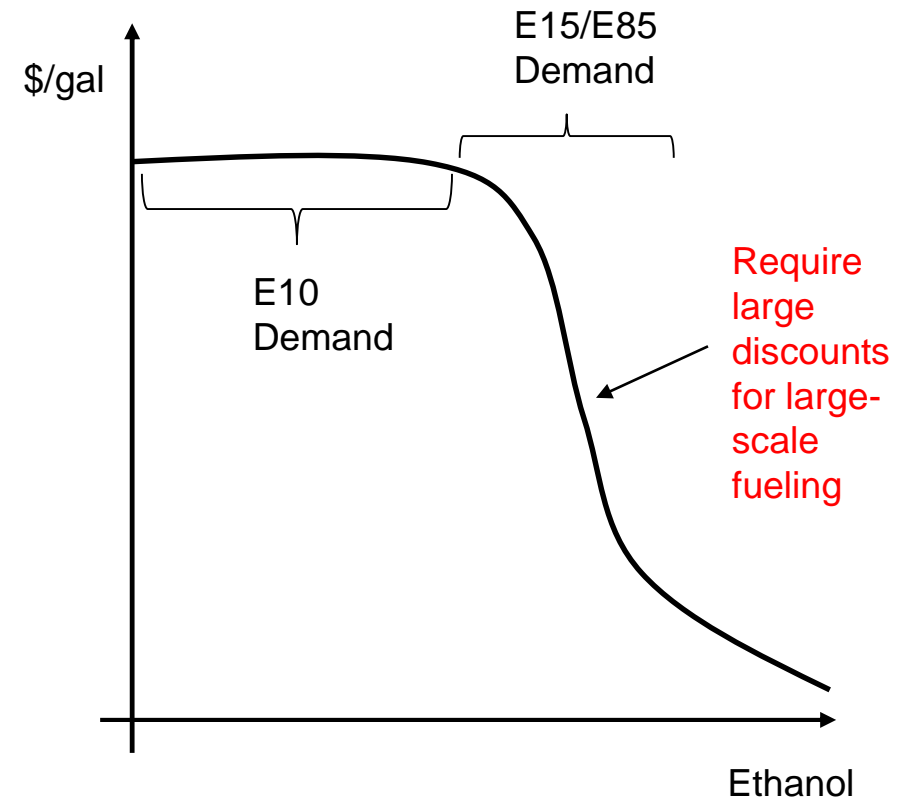

Gabriel E. Lade

Assistant Professor of Economics

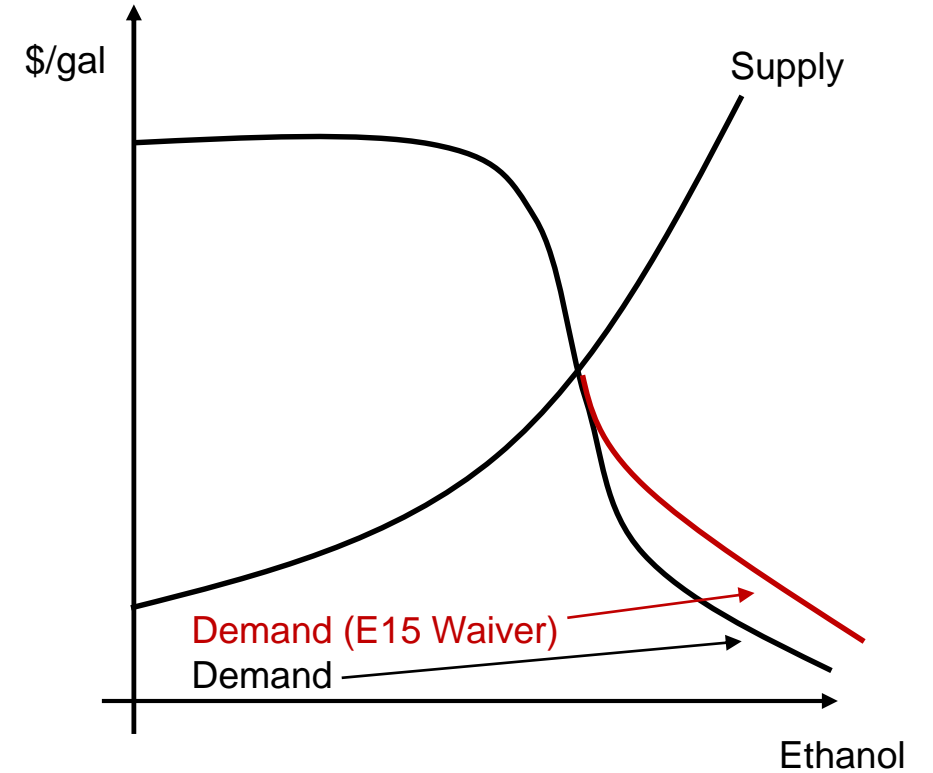

Macalester College and CARD

**Leveraging First Generation Bioethanol Production Workshop**

# Fact 1: U.S. consumers require price discounts to consumer high-blend ethanol fuels (E15, E85)

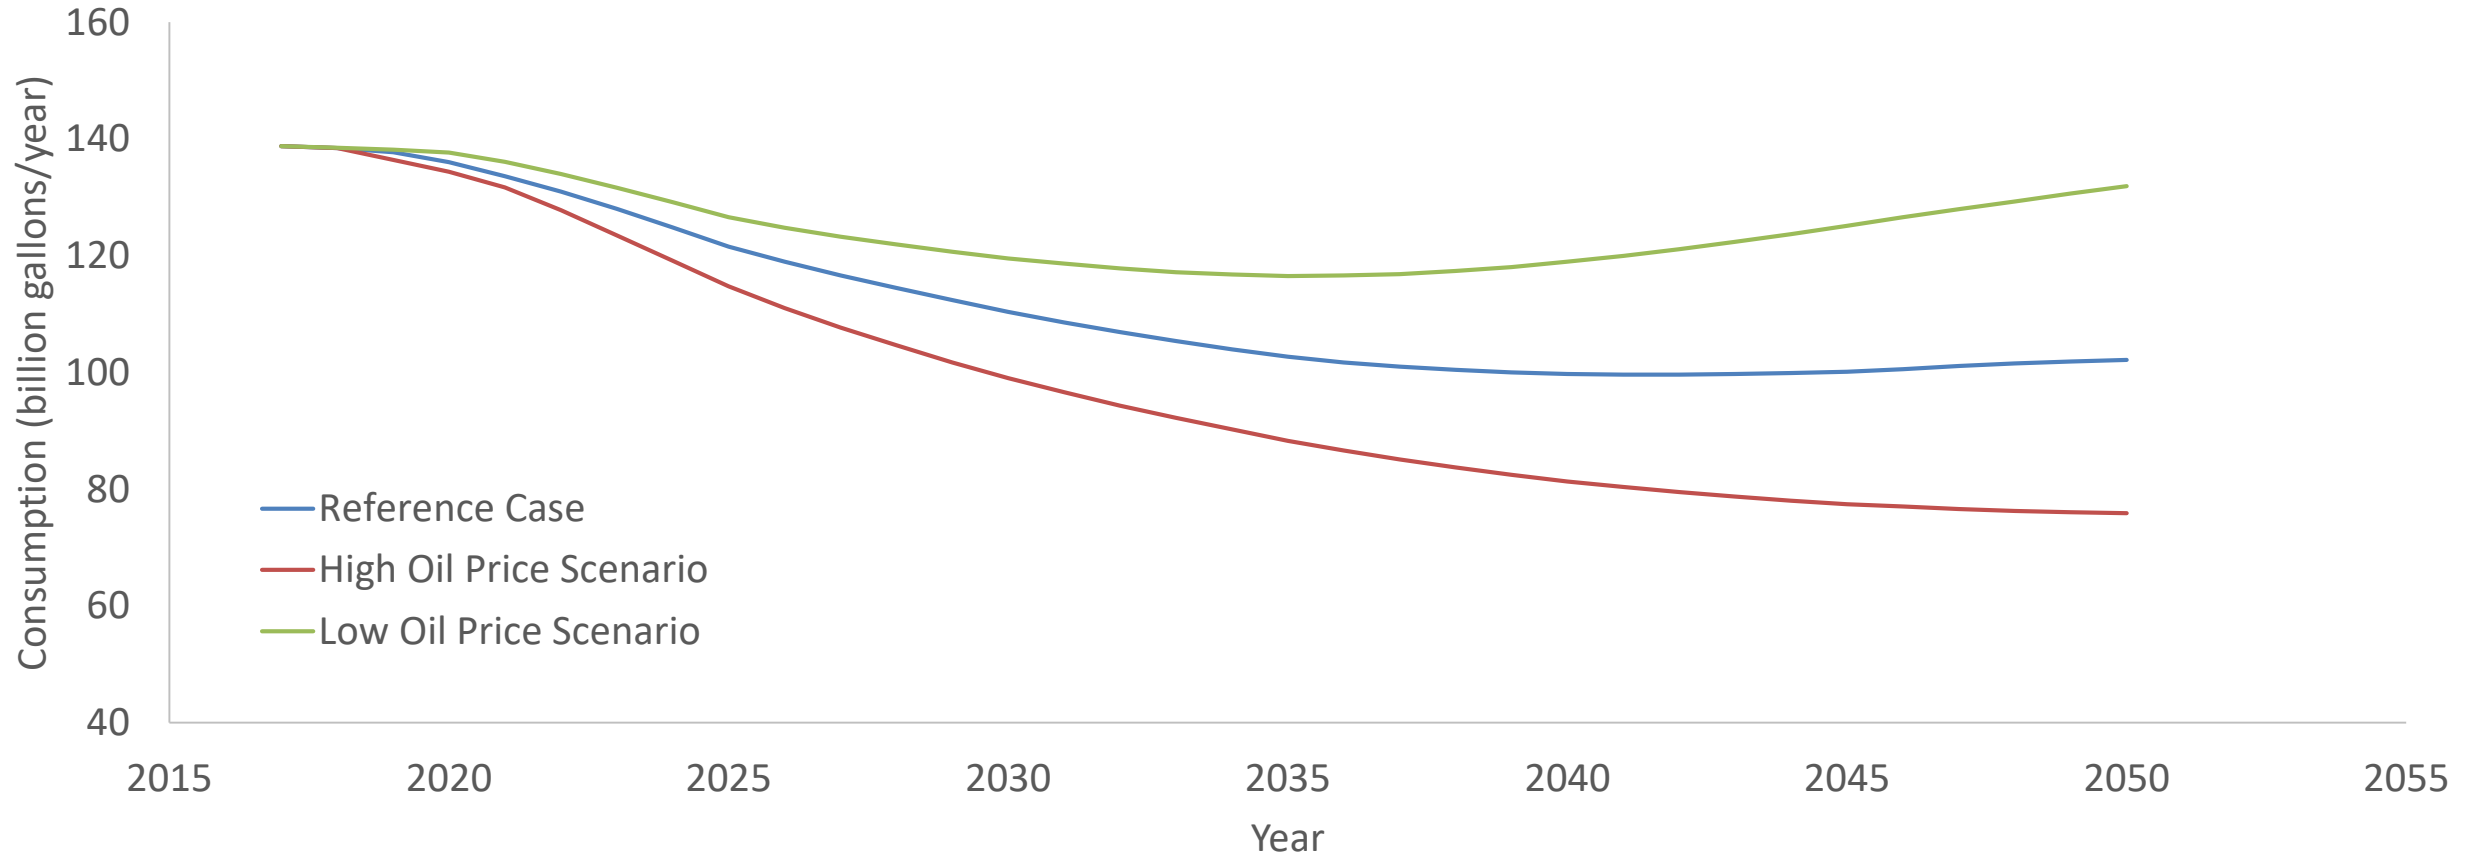

# Fact 1: U.S. consumers require price discounts to consumer high-blend ethanol fuels (E15, E85)

# Fact 2: Liquid transportation fuel demand is (likely) declining

## EIA Projected Motor Gasoline Consumption for Transportation

(Source: EIA AEO 2019)

## Fact 2: Liquid transportation fuel demand is (likely) declining
