DEPARTMENT OF ENERGY

[FE Docket No. 15-96-LNG]

Port Arthur LNG, LLC; Application To Amend Export Term Through December 31, 2050, for Existing Non-Free Trade Agreement Authorization

AGENCY: Office of Fossil Energy, Department of Energy.

ACTION: Notice of application.

SUMMARY: The Office of Fossil Energy (FE) of the Department of Energy (DOE) gives notice (Notice) of receipt of an application (Application), filed on September 18, 2020, by Port Arthur LNG, LLC (Port Arthur LNG). Port Arthur LNG seeks to amend the export term set forth in its current authorization to export liquefied natural gas (LNG) to non-free trade agreement countries, DOE/FE Order No. 4372, to a term ending on December 31, 2050. Port Arthur LNG filed the Application under the Natural Gas Act (NGA) and DOE's policy statement entitled, "Extending Natural Gas Export Authorizations to Non-Free Trade Agreement Countries Through the Year 2050" (Policy Statement). Protests, motions to intervene, notices of intervention, and written comments on the requested term extension are invited.

DATES: Protests, motions to intervene or notices of intervention, as applicable, requests for additional procedures, and written comments are to be filed using procedures detailed in the Public

Comment Procedures section no later than 4:30 p.m., Eastern time, October 16, 2020.

SUPPLEMENTARY INFORMATION: On May 2, 2019, in Order No. 4372, DOE/FE authorized Port Arthur LNG to export domestically produced LNG in a volume equivalent to 698 billion cubic feet per year of natural gas, pursuant to NGA section 3(a), 15 U.S.C. 717b(a).¹ Port Arthur LNG is authorized to export this LNG by vessel from the proposed Port Arthur LNG Project to be located in Port Arthur, Texas, to any country with which the United States has not entered into a free trade agreement (FTA) requiring national treatment for trade in natural gas, and with which trade is not prohibited by U.S. law or policy (non-FTA countries)² for a 20-year term. In the Application,² Port Arthur LNG asks

DOE to extend its current export term to a term ending on December 31, 2050, as provided in the Policy Statement.³ Additional details can be found in the Application, posted on the DOE/FE website at: <https://www.energy.gov/sites/prod/files/2020/09/f78/Port%20Arthur%20LNG%20LLC-%20Application%20for%20Term%20Extensions.pdf>.

DOE/FE Evaluation

In the Policy Statement, DOE adopted a term through December 31, 2050 (inclusive of any make-up period), as the standard export term for long-term non-FTA authorizations.⁴ As the basis for its decision, DOE considered its obligations under NGA section 3(a), the public comments supporting and opposing the proposed Policy Statement, and a wide range of information bearing on the public interest.⁵ DOE explained that, upon receipt of an application under the Policy Statement, it would conduct a public interest analysis of the application under NGA section 3(a). DOE further stated that "the public interest analysis will be limited to the application for the term extension—meaning an intervenor or protestor may challenge the requested extension but not the existing non-FTA order."⁶

Accordingly, in reviewing Port Arthur LNG's Application, DOE/FE will consider any issues required by law or policy under NGA section 3(a), as informed by the Policy Statement. To the extent appropriate, DOE will consider the study entitled, *Macroeconomic Outcomes of Market Determined Levels of U.S. LNG Exports* (2018 LNG Export Study),⁷ DOE's response to public comments received on that Study,⁸ and the following environmental documents:

Parties that may oppose the Application should address these issues and documents in their comments and/or protests, as well as other issues deemed relevant to the Application.

The National Environmental Policy Act (NEPA), 42 U.S.C. 4321 *et seq.*, requires DOE to give appropriate consideration to the environmental effects of its proposed decisions. No final decision will be issued in this proceeding until DOE has met its environmental responsibilities.

Public Comment Procedures

In response to this Notice, any person may file a protest, comments, or a motion to intervene or notice of intervention, as applicable, addressing the Application. Interested parties will be provided 15 days from the date of publication of this Notice in which to submit comments, protests, motions to intervene, or notices of intervention. The public previously was given an opportunity to intervene in, protest, and comment on Port Arthur LNG's long-term non-FTA application. Therefore, DOE will not consider comments or protests that do not bear directly on the requested term extension.

Any person wishing to become a party to the proceeding must file a motion to intervene or notice of intervention. The filing of comments or a protest with respect to the Application will not serve to make the commenter or protestant a party to the proceeding, although protests and comments received from persons who are not parties will be considered in determining the appropriate action to be taken on the Application. All protests, comments,

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP15–557–000]

Total Peaking Services, LLC; Notice of Request for Extension of Time

Take notice that on September 16, 2020, Total Peaking Services, LLC (Total Peaking) requested that the Federal Energy Regulatory Commission (Commission) grant an extension of time, until December 15, 2021, to complete upgrades to its existing liquefied natural gas facility (Milford Facility) in Milford, Connecticut, as authorized in the December 15, 2016 Order Issuing Certificate, Approving Abandonment, and Reaffirming Market-Based Rate Authority (Certificate Order).¹ The Certificate Order required Total Peaking to complete the proposed upgrades, including the installation of three new 400 kilowatt emergency generators, and make the facilities available for service within three years of issuance, or by December 15, 2019.²

Total Peaking initially requested a one-year extension of time on November 26, 2019, to complete construction on the third emergency generator.³ On December 11, 2019, the Commission granted Total Peaking's November 26, 2019 request.⁴ In its September 16, 2020 request, Total Peaking states that due to unforeseen delays in 2020, including the impact of the Novel Coronavirus Disease (COVID–19) and extended equipment lead times, the third generator will not be completed by December 15, 2020.⁵

This notice establishes a 15-calendar day intervention and comment period deadline. Any person wishing to comment on Total Peaking's request for an extension of time may do so. No reply comments or answers will be considered. If you wish to obtain legal status by becoming a party to the proceedings for this request, you should, on or before the comment date stated below, file a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211)
